- Admin Support (Administrator)
- ATS2020 - Community of Practice (Administrator)

For site admins only: you won't see this symbol!

Dashboard

- Content
- Portfolio
- Groups

Mahara in the version 17.04 changed the navigation to „App-style“. You can reveal all menu items by clicking either on the  Symbol next to your name (1) which will lead you to your Settings and your Mailbox or by clicking on the menu Symbol (2 = ) to navigate to the Dashboard, or the overview-pages for „Content“, „Portfolio“ or „Groups“.

„Latest changes I can view“ on your Dashboard allow you to see changes in all pages you have access to. New: You can determine, how many changes you want to display.

Move your mouse over the white field next to the trashcan symbol in order to see the settings icon 

Clicking on it opens a dialogue field for configuration of the block „Latest changes...“.

Latest changes I can view: Configure

Block title
A default title will be generated if you leave the title field blank

Maximum number of results to show
Between 1 and 100

Retractable

Select to allow this block to be retracted when the header is clicked.

Save Cancel

“Portfolio”: New overview

ATS2020
Assessment of Transversal Skills

The Sub-Menu „Portfolio“ can be navigated via a drop-down menu to get to pages/collections „Shared by me“ and „Shared with me“ and to starting pages for the export and import of ePortfolios. If you just open the main menu point „Portfolio“ you are greeted by a new overview: Here, each page and collection is displayed with a short description (the text which you have provided as a description).

Clicks on the lock-Symbol (1) show you with whom you have shared the page. A number indicates a collection existing of the given number of pages (2).

If you click on the vertical dots (3), a drop-down menu allows you to directly go to „edit“ and to delete the page. Furthermore, you see when the page/collection was created and last modified.

ATS2020 - Assessment of Transversal Skills (for lower secondary students): Technology and Tools

This is a Mahara collection of products (and processes) of Work Package 2: Technology and Tools

It bases of the work of the ATS2020 WP2 key partners: Anastasia Economou, Nicolas Kanaris, John Hurley, Jarmo Viteli, Reet Taimsoo, Peter Baumgartner, Bernhard Ertl, Tina Gruber-Mücke, and Andrea Ghoneim. It contains valuable contributions of other ATS2020 partners, namely Mitja Čepič Vogrinčič and Dora Nousia. Editing: Andrea Ghoneim

Please note that this should be considered a semi-official space (work in progress). Please note further, that most of the documents collected here are considered documents with restricted access. They mainly inform the project ATS2020 and are not intended to be public. As they might give a good insight into our "project kitchen" you can have a glance at them, anyway. And you are, of course, welcome to comment!

There are new printing options for your ePortfolio pages. This printing option – dropping down after clicking on the doesn't allow the URLs „under“ the text any more and just prints text and pictures. Retracted blocks are expanded, so the printout (which could be also an ePrint, for example to a PDF file) shows all text and images.

The same drop-down-menu also enables you to delete the page when you are directly on it – another new feature.

#ATS2020

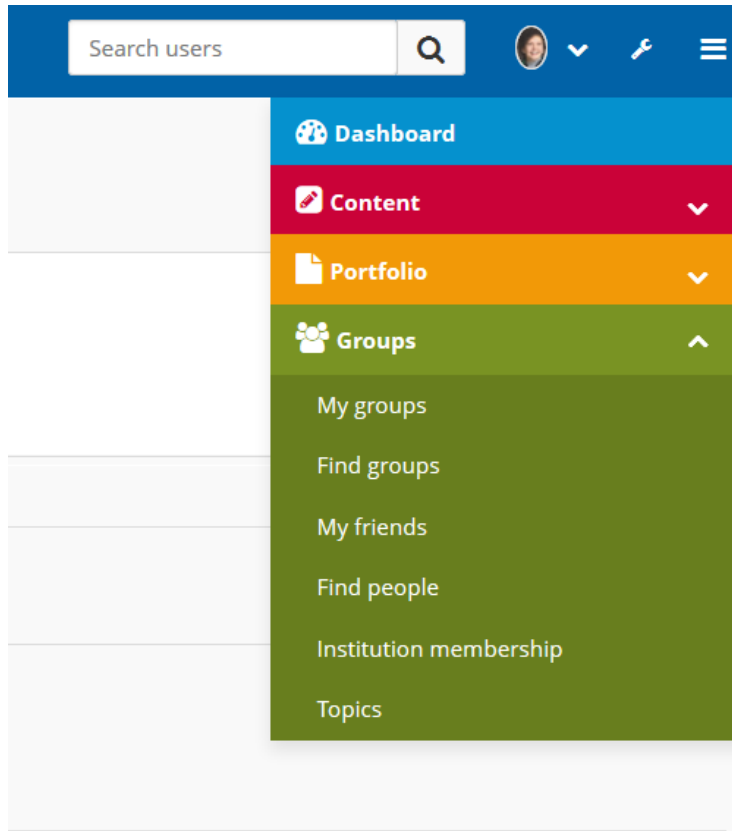

See update date of a page

In the new version of Mahara, you can also see, when a page was last updated.

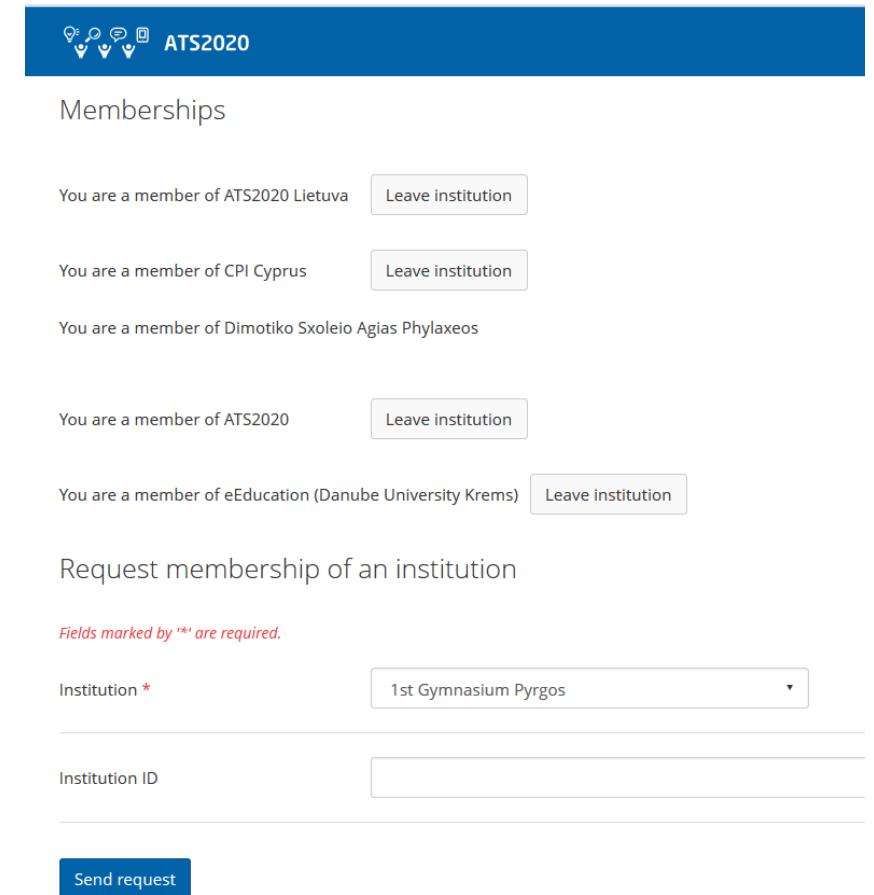

However, this only applies for pages which were updated after the upgrade of Mahara.

Changes in the “Groups” menu

The option „find friends“ is now renamed to „find people“.

If you click on „institution membership, you can see your memberships and – if permitted – can request to leave an institution. You can also use the „institution membership“ page to request membership of an institution.
